Why the Saskatchewan Forage Council?

The Saskatchewan Forage Council has a mandate to enhance the province’s forage and grassland industry through partnerships with all sectors of the industry: producers, industry organizations, businesses, government and academia.

Formed in 1988, *our objectives are focused on the development and sharing of information related to the production and utilization of all forage resources, prioritization of forage research and collaboration with governments to develop and implement effective policies and programs as they relate to forage production and marketing.*
